

ETHICS IN CAPACITY ASSESSMENT

Gary Goldsand, Director, John Dossetor Health Ethics Centre

FRIDAY, 16 JUNE 2017

12:00—13:00 MST/MDT

Mazankowski Alberta Heart Institute Shaw 3i Auditorium—OA8.60

Determining whether our patients are able to participate in clinical decision-making is one of the most difficult challenges for any clinician. This case-based discussion reviews how we might better assist patients and families to arrive at decisions that truly respect each patient's wishes and "personhood" in situations where cognitive deficits prevent these from being clear.
